

## Pulpit Announcement

To follow-up on our lay witness presentation last weekend we would like to give you all an update on where we currently stand with the One Community Center Campaign.

We are very pleased to announce that, as promised, the anonymous donor in fact deposited \$250,000 into our account to follow-up on the first installment of their \$1 million challenge pledge.

We are also pleased to announce that following last weekend's presentation we had a significant increase in pledges and we are now at \$2 million towards our goal of \$2.5 million.

This is great news and is very encouraging as we continue to get closer to the challenge that this most generous anonymous donor has put to us.

After last weekend we know that many people have been asking God how they should participate in this historic campaign for our parish. Just like last weekend we have tables with pledge cards set up on the lanai and there are team members staffing those tables to answer any questions. If you have brought back a completed pledge card from last weekend you can return it at one of the tables on the lanai.

If you have not yet made your pledge and are still discerning what God is calling you to do, I ask that you step forward today and complete a pledge card after Mass so that we will reach our parish goal of \$2.5M and will allow us to receive the entire \$1M challenge pledge that has been offered by our anonymous donor.

Let's all do our part and help. Mahalo.
